**SSLC (89.28%)**

**St.Victor's Girls High School  
Puttur**

2019

## PROFILE

I am Bhuvaneshwari, currently pursuing a Bachelor of Engineering (B.E.) in Computer Science and Engineering (CSE). I am passionate about developing innovative technologies that enhance how users connect, explore, and interact with information. Throughout my studies, I have demonstrated versatility, leadership qualities, and a keen enthusiasm for tackling new challenges.

## ACCOMPLISHMENT

### Web Developer Intern

Oasis Infobyte

Nov 2023-Dec 2023

- Developed and implemented web-based applications, focusing on functionality and user needs.
- Implemented responsive designs using HTML and CSS to ensure optimal performance across various devices.
- Collaborated with fellow interns to review code changes and resolve conflicts promptly, ensuring smooth project progression.

### Intra Internship

Qspiders

Oct 2023-Nov 2023

- Completed an internship focused on MongoDB, gaining practical experience in database management and NoSQL principles.
- Developed skills in designing and implementing MongoDB databases to store and manage data efficiently.
- Worked on database queries, indexing, and aggregation operations to optimize data retrieval and processing.

## PROJECT

- I am currently engaged in the development of ParnaSuthram, a project aimed at creating a model for transliterating Tulu manuscripts into Kannada text. This initiative employs advanced technologies including machine learning, image processing, and OCR.
- Involved in a project focused on computer graphics and image processing aimed at detecting diseases in tomato leaves.
- I successfully developed a Pharmacy Management System as part of my academics. This project aimed to streamline and optimize the management of pharmaceutical operations through a centralized database.
- Designed and developed a tribute page and tourism page using HTML and CSS, showcasing proficiency in front-end web development and design principles.
